Date: _____ Your signature: _____

Goals of the Digital Photo-Track:

God challenges us as Christian photographers to use our cameras to connect, challenge, and encourage people.

We want to train young Christians and motivate them to use photography as a means of communication for the Kingdom of God.

We try to look at photography from a Biblical perspective, and to emphasize Christian values through the use of our cameras.

That can happen in daily working life, or in the church:

As a tool for evangelism, to wake cross-cultural understanding, to be a voice for people who cannot speak for themselves, to make beauty visible and much more.
